

SCORPION **ICE & SNOW**

 SUV —  WINTER —  TOURING

Designed for winter use, this tyre stands out for the excellent handling and supreme driving comfort it provides. It ensures excellent grip and low noise levels at low temperatures, even through water or on snow. Characterised by an elegant tread pattern with an asymmetric design, the wide longitudinal grooves and angled tread blocks ensure the most demanding driver remains in full control, even in the most difficult weather conditions.

Safety, comfort and looks combine to make SCORPION™ ICE & SNOW a tyre that will enhance a vehicle, making it ideal for even the most aggressive style conversions.

MULTI-EDGED TREAD BLOCKS

Optimum traction on snow and in downhill driving

FOUR BROAD LONGITUDINAL GROOVES

High resistance to aquaplaning

SPECIALISED TREAD DESIGN

Excellent in all winter road conditions, with low noise levels

ROBUST OFF-ROAD CARCASS DESIGN

Controlled response and handling
